

Running UCR Reports

The UCR reports are generated upon request by filling out the "RUN PROMPT for Uniform Crime Reports" screen found on the Reports Menu. This RUN PROMPT screen now has a new question (see figure below) on it called "Use 'Include' flag in offense". This question allows you to select which method to use when determining if a specific offense will be included in the reports. If you leave it blank or fill in "N" the reports will be generated the same as they always have been by reporting only offense number 1 for each incident. If you change it to "Y" then selection of offenses will be based solely on the content of the "Include in UCR" code.

RUN PROMPT for Uniform Crime Reports IRMP301R

The reports will be based on the the following criteria:

Select offenses from date	1/01/1994
Select offenses to date	12/31/2000
Select by owning jurisdiction	ANY
Number of copies	01
Schedule report to run later	<input type="checkbox"/> (Y,N)
Return A	<input checked="" type="checkbox"/> (Y,N)
Supplemental Report of Offenses Known	<input type="checkbox"/> (Y,N)
Supplement to Return A	<input type="checkbox"/> (Y,N)
Age, Sex, and Race of Persons Arrested - Adult	<input type="checkbox"/> (Y,N)
Age, Sex, and Race of Persons Arrested - Juvenile	<input type="checkbox"/> (Y,N)
Sexual Assault Report	<input type="checkbox"/> (Y,N)
Include detail list by UCR number for selected reports...	<input type="checkbox"/> (AL,?)
Include detail list for arrest reports?	<input type="checkbox"/> (Y,N)
Use 'Include' flag in offense	<input type="checkbox"/> (Y,N)

F3=Exit (Reports not generated) ENTER=Perform Function

Row: 5 Col: 64

Only the first three reports (Return A, Supplemental Report of Offenses Known, and Supplement to Return A) are actually affected by this feature. The other reports are based on contact information. This new feature will allow your agencies to decide which offenses within an incident will be reported on the UCR Reports and allow more offenses to be counted when desired.
